The HP ProBook 4 G2i Notebook Next Gen AI offers a blend of performance and security for everyday computing. Powered by an Intel Core Ultra 5 processor and supported by 12 MB of L3 cache, this notebook ensures smooth multitasking and efficient operation. With its 65 W USB-C charger, users benefit from rapid charging and connectivity, making it an ideal choice for professionals on the go. The display features anti-glare and Low Blue Light technology, enhancing comfort during long work sessions while providing crisp visuals. Equipped with an SSD, users can expect fast boot times and quick access to files, contributing to overall productivity.

Security features such as HP Tamper Lock and a chassis intrusion sensor protect valuable data and devices, ideal for business environments. The built-in dual stereo speakers and AI noise reduction technology enhance audio quality during video conferencing, ensuring clear communication. A spill-resistant keyboard and a multi-touch ClickPad enable easier navigation, while the inclusion of
