The Targaryen Game of Thrones mouse combines innovative technology and stylish design, making it an ideal choice for gamers and fans alike. With both wireless and wired connectivity options, this mouse provides flexibility during gameplay. The advanced optical sensor with a movement resolution of 4800 DPI ensures precision tracking, whether for casual use or intense gaming sessions. Featuring a scrolling wheel and customizable backlighting, it enhances functionality and aesthetics, allowing for a personalized experience.

Built to last, this gaming mouse is equipped with ceramic feet offering smooth glides and durability, ensuring it withstands the demands of competitive gaming. With a lifespan of up to 20 million clicks and the inclusion of a USB wireless receiver, it caters to all playing styles. Whether right- or left-handed, its ergonomic design ensures comfort during extended use.
