R898

The HP 495k keyboard combines functionality with sleek design, featuring dual mode connectivity that allows users to switch between Bluetooth and 2.4 GHz wireless for versatility. Its 3-zone layout caters to users who multitask across various devices, while the low-profile key travel ensures a comfortable typing experience with quick responsiveness. With a spill-resistant design, this keyboard is built to withstand everyday spills and accidents, providing peace of mind during work or play. Compliant with numerous standards, the HP 495k is ideal for those seeking reliability and convenience in their workspace.
