EAN: 4710180197372

Product Code: 711995

R9,106

The Acer B7 series of professional monitors is designed offer outstanding performance, backed up by excellent reliability.

Outstanding Performance

The mantra when It comes to the B7 series' display is 'Infused with colour', with every model offering rich colours, wide viewing angles and fine control to ensure a consistent, quality viewing experience. The B247YC specifically features a 23.8" Full HD IPS display which provides plenty of detail for working on spreadsheets, reports and other tasks. The B7 series features 6-axis colour adjustment to ensure that you can fine-tune your display to meet your needs. This also ensures it has a Delta E value of <1, which is a measure of how accurate the output of the monitor is, when a Delta E value is <1 then the colour variation is imperceptible to the human eye.

The attention to image quality for the B7 series is matched only by the focus on ensuring that it is comfortable to use and protects the user's vision. To this end, Acer have integrated their VisionCare

suite of technologies into the B7 monitors – BlueLightShield, Flickerless, Low Dimming and ComfyView. These technologies are designed to minimise eye strain and fatigue when using the monitor, especially for extended periods such as work environments.

The B7 series is perfectly suited to any workplace thanks to a range of features that are designed with businesses in mind. The first thing you'll notice is the understated, professional style that is accentuated by the super-slim ZeroFrame bezels, which not only serve keep size and weight to a minimum but also make the B7 monitors ideal for multi-monitor systems. This is supported by a wide range of useful connectivity options, including VGA, HDMI and DisplayPort.

The B247YC is also equipped with a USB-C port, which offers a full range of connectivity functionality in the convenience of a single cable – USB-C can be used to carry video signals, meaning it can be used instead of an HDMI or other dedicated video cable; it can also be used to transfer data, meaning you can connect multiple peripherals to your B247YC via the integrated USB hub and they will all work perfectly; and it can also be used to power external devices, meaning that your laptop can charge from your monitor when it's connected. Everything you need, in one cable.

Ergonomics are also a huge focus for the design of the B7 series, as well as looking stylish the ErgoStand is capable of a wide range of movement to ensure that you can adjust the screen to the ideal position, to help further combat eye strain as well as minimising physical discomfort by allowing you to sit comfortably and maintain good posture.

Excellent Reliability

The B7 series includes Acer's 3-year Commercial Warranty as standard.

On top of that, it's also covered by the Acer Reliability Promise, which means that if the monitor suffers a warranty fault within the first 12 months, not only will it be repaired for you, you'll be refunded 100% of the price paid as well.
