- No need for new wires or drilling
- Network passes through walls and floors
- Compatible with any WiFi routers or other powerline products
- Expand coverage by adding more extenders

AV1000 Speeds and 300 Meters Range

Using advanced HomePlug AV2 technology, TL-WPA7617 ensures stable and high-speed WiFi, and also wired connection, providing data transmissions of up to 1000 Mbps* over the electrical wiring for ranges up to 300 meters. Stream in HD, game online and download large files without interruption thanks to reliable powerline links.

Gigabit Ethernet for Reliable Connections

One Gigabit Ethernet port provides warp-speed wired connections for 4K HD streaming, lag-free gaming, and more. Two Ethernet cables are included in the box.

AC 1200 WiFi for Ultra-fast Internet Connections

AC1200 dual band WiFi (867 Mbps on 5GHz & 300 Mbps on 2.4GHz) allows streaming, gaming, emailing, browsing and posting on your wireless devices, throughout your home.

Plug and Play,

No Configuration Required

Ditch the complicated setup process for good. Get started with powerline in just two steps:
- Step1 : connect the existing powerline adapter to your router.
- Step2 : plug in TL-WPA7617 wherever you need wired and wireless internet service.

One-Touch Wi-Fi Configuration

Instantly copies the wireless network name (SSID) and password from your router by pressing the WiFi Clone button. Besides, any changes made to the WiFi settings of any powerline adapter will be automatically applied across the entire Powerline network.
