Alienware 15 (DA15260)

Alienware 15 delivers the full Alienware gaming experience in a streamlined and durable design that combines powerful performance, efficient cooling, and modern connectivity. Built for gamers and power users alike, it balances everyday usability with the capability to run demanding AAA games and creative applications. Powered by the Intel® Core? 7 240H processor and NVIDIA® GeForce RTX? 5060 graphics, the system provides exceptional gaming performance, accelerated content creation capabilities, and smooth multitasking.

Advanced Alienware Cryo-Tech? cooling technology helps maintain stable performance even during extended gaming sessions. The thermal design utilizes dual fans, copper heat pipes, dedicated air intake zones, and a rear exhaust system to optimize airflow where it matters most. RTX 5060 configurations additionally benefit from a Cryo-Chamber structure that enhances cooling efficiency and enables up to 85 W GPU power for consistent gaming performance. User-replaceable DDR5 memory ensures the system can be upgraded as requirements evolve.

The 15.3-inch WUXGA display combines a fast 165 Hz refresh rate with a 16:10 aspect ratio, delivering smooth gameplay and increased vertical workspace compared to traditional Full HD displays. The durable Nova Black chassis features a premium metallic appearance, a 180-degree hinge design, and a full-size white-backlit keyboard with numeric keypad. Wi-Fi 6 connectivity, HDMI 2.1 output, USB-C DisplayPort support, and Gigabit Ethernet provide versatile connectivity for gaming setups, peripherals, and external displays.
