Alienware 15 (DA15260)

Alienware 15 delivers the full Alienware gaming experience in a streamlined and durable design that combines powerful performance, efficient cooling, and modern connectivity. Designed for gamers, students, and everyday power users, it provides an excellent balance of gaming capability, responsiveness, and value. Powered by the Intel® Core? 5 210H processor and NVIDIA® GeForce RTX? 3050 graphics, the system is ready for modern games, multimedia workloads, content creation, and daily productivity.

Advanced Alienware Cryo-Tech? cooling technology helps maintain stable performance during extended gaming sessions. The thermal architecture utilizes dual fans, copper heat pipes, dedicated intake vents, and a rear exhaust system to efficiently manage heat while maintaining low noise levels. The robust Nova Black chassis is engineered for durability and portability, while user-replaceable DDR5 memory enables future upgrades as requirements evolve.

The 15.3-inch WUXGA display combines a fast 165 Hz refresh rate with a 16:10 aspect ratio, delivering smooth visuals and increased vertical workspace compared to traditional Full HD displays. The full-size white-backlit keyboard with numeric keypad enhances productivity and gaming comfort, while Wi-Fi 6 connectivity, HDMI 2.1 output, USB-C DisplayPort support, and Gigabit Ethernet provide versatile connectivity for gaming setups, peripherals, and external displays.
