8000 Hz Polling Rate

Setting the mouse at a 8000 Hz polling rate can result in a high-speed signal transmittance between the mouse and the connected device. More responsive cursor movements captured with faster trigger response guarantees unparalleled performance, securing your triumph when it truly counts!

Better Performance with 10x Latency Advantage over Industry Norms

Featuring an 8K polling rate, the M5 ergonomic mouse achieves a latency of just 0.93ms in 2.4 GHz mode—over ten times faster than other flagship ergonomic mice. This sets a new standard for responsiveness in comfort-focused gaming and productivity.

More Customization on The Keychron Launcher

Just click, save, and turn it off, the online Launcher web app allows for easy personalization. You can modify keys, set shortcuts, create dedicated macros, or do professional settings for LOD, polling rate, DPI, etc. Besides, it provides 5 on-board memory profiles for your access to different apps or computers.

Anytime, Anywhere Access

Keychron Launcher is a web page configurator that you can use in the office, school, lab, or government department—anywhere with internet access. Configure your mouse online anytime without the need to download or install files. No hassle, no trouble.

Compatible with All Platforms

As a web-based tool, Keychron Launcher supports all operating systems. Personalize and program your mouse on Windows, macOS, Linux, and more. Enjoy unprecedented flexibility with compatibility across Chrome, Edge, and Opera browser.

Always Up to Date

Keychron Launcher is continuously updated, ensuring you always have access to the latest version. There's no need to download updates or wait for installations.

Stable & Ultra-low Latency Response

2.4 GHz and Bluetooth

With cutting-edge 2.4 GHz frequency wireless connectivity, the M5 gives you extremely low latency

and quick response for gaming and the office. It also offers a stable 5.3 Bluetooth connection for even more variety in your wireless connectivity.

Peak Performance For Every Scenario

Precise sensors, extremely low latency wireless connectivity, and high polling rate give you the best performance for both office , gaming or even on the go.

47° Vertical Angle for Optimal Wrist Comfort

The ergonomic design of M5, especially its unique 47° vertical angle alleviates wrist strain, featuring a smooth curve throughout the body and a thumb rest on the side, which conforms more closely to the contour of your palm, ensuring a comfortable grip over extended periods. It promotes a natural handshake position for all-day comfort.

Switch Polling Rate

Press the Report Rate button to switch among 6 levels of polling rate from 125 Hz to 8000 Hz in the 2.4 GHz / Wired mode.

8K Wireless Receiver

The M5 8K comes with an included 8K wireless receiver.

Connectivity for Different Receivers in 2.4 GHz Wireless Mode

Up To 140 Hours

Equipped with a large 600 mAh battery , the M5 provides a long continuous working time of up to 140 hours in Bluetooth mode and up to 120 hours in 1K Polling Rate mode

Huano 80M Micro

Switch

Huano 80M micro switch deliver clean clicks feeling, and the lifespan is up to 80 million clicks

Adjust Without Software

Quick swap 3 Bluetooth devices through the bottom button for a seamless workflow experience. You can also adjust DPI and polling rates without software installation demand
