MEMORY DRIVE FLASH USB3 128GB/JF930C TS128GJF930C TRANSCEND

Model: TS128GJF930C

Manufacturer: TRANSCEND

EAN: 760557850328

Product Code: 772100

R2,313

Transcend's JetFlash 930C flash drive features a dual connector that supports USB Type-A and Type-C devices. With a USB 3.2 Gen 1 interface and built-in 3D NAND flash memory, its speeds can reach 420MB/s. High capacity of up to 512GB creates sufficient storage space for media files and gaming files. If you are searching for a portable and stylish storage device to play games, Transcend's JetFlash 930C is the one!

Dual USB connector for double the convenience

JetFlash 930C flash drive is designed with a dual connector that supports USB Type-A and Type-C devices. You can easily transfer files among smartphones, computers, and even game consoles!

Unparalleled transfer speeds

With 3D NAND flash and a USB 3.2 Gen1 interface, Transcend's JetFlash 930C flash drive offers advanced technology translating into top performance of 420MB/s read and 400MB/s write speeds. This high-endurance drive has 10 times the lifespan of a regular 3D NAND flash. Move your gaming files in a flash!

Metallic radiance

Transcend's JetFlash 930C flash drive comes with an aluminum metallic housing glowing with a soft golden hue. This not only stands for advanced protection, but makes you look chic and stylish even when playing games.

Vast storage capacity

Offering capacities as high as 512GB to support various media files, the JetFlash 930C flash drive provides the storage space you need. You can transfer, store, and share gaming files more easily than ever before!

Value-added software

A complimentary download from Transcend’s official website, Transcend Elite data management software is compatible with both Windows OS and macOS. Transcend Elite features backup and restore, data encryption, and cloud backup functions, helping you keep important files organized, protected, and up-to-date!

Transcend also offers RecoveRx, a complimentary data recovery utility that allows you to search deep within a storage device for traces of erased files including digital photos, documents, music, and videos.
