

KEYBOARD K620 USB US/920-013333 LOGITECH

Model: 920-013333

Manufacturer: LOGITECH

EAN: 5099206129504

Product Code: 772319

R1,731

Wired multi-OS keyboard with laptop-style typing for shared workstations.

WIRED, DONE RIGHT

Wired solutions are essential to certain industries. Signature Slim Wired K620 for Business brings an improved experience to those workplaces with high-quality, fluid typing, fast-access to AI tools, and more. Works with multiple OS for simple deployment.

HIGH-QUALITY, FLUID TYPING

The keyboard features low-profile, laptop-style keys that are thoughtfully designed with a subtle scoop to deliver a high-quality typing experience. The fluid keystrokes are quiet and feel instantly familiar, and the smooth keys offer precise and efficient typing. Ideal for touch typists.

UNLOCK AI TOOLS WITH ONE KEYSTROKE

Seamlessly add AI companions to improve ways of working with the AI Launch Key. Without additional software required, get instant access to Copilot in a Windows setup or Gemini for ChromeOS if available on your device.

CUSTOMIZABLE, PRODUCTIVE SHORTCUTS

Logi Tune allows employees to easily mute themselves, turn their video off or on, or share screen during calls. It also provides a high degree of customization, including the F-row shortcut keys and a dedicated Action Key to assign specific shortcuts.

WORKS ACROSS PLATFORMS

Signature Slim Wired K620 for Business works with Windows, ChromeOS, or macOS with a simple toggle switch that IT can set up at deployment or employees can adjust when they sit at the desk.

GET A CENTRALIZED VIEW WITH SYNC

With Logitech Sync, our secure cloud-based management portal, IT managers can monitor the deployment of individual devices and ensure that each device is always ready to use.

MORE WAYS TO CONNECT

You’ve got choices. If there are no USB-C ports left, easily connect the Signature Slim Wired K620 keyboard with the Logi USB-A to USB-C adaptor to the USB-A port on laptops or docking stations.

IMPROVED POWER EFFICIENCY

Signature Slim Wired K620 for Business is designed to consume 49% less energy thanks to improvements like using a low-power microcontroller and optimizing the LED functions.
