

HEADSET VIRO PLUS USB/EY1A001 ENDORFY

Model: EY1A001

Manufacturer: ENDORFY

EAN: 0115903018665754

Product Code: 772335

R1,792

When you live fast and do many things at once, you need equipment that keeps up with you. That's exactly what the VIRO Plus USB is. These are minimalist headphones with audio as clean as a newbie's armor before their first battle. It's thanks to their massive drivers (53 mm!).

Together with the VIRO Plus USB, you get a detachable microphone with a pop filter. It's small but sufficient for any conversation. This little guy dampens background noises like a pro, so you don't have to worry about BFFs hearing your mom vacuuming at some ungodly hour. For your convenience, we also give you an extra pair of earpads. They are pleasantly soft – made from a durable, air-permeable fabric.

Almost forgot! You'll also get a USB sound card with 7.1 audio and dedicated software. Fine-tune specific frequencies and save custom profiles for that extra oomph.

Sound so clear it gives you goosebumps

We like it when headphones pick up even the quietest sounds. With this amount of detail, you can get even more out of podcasts, conversations, and your favorite songs (we have goosebumps even thinking about it!). With VIRO Plus USB you'll hear it all – we're still working on ultrasounds though.

1, 2, 3 (detachable) microphone test

Headphones with a microphone are great. With the VIRO Plus USB, you get a detachable mic with a pop filter. It's small, but it'll win you over with its quality in meetings, video calls, and games. You deserve to sound like a professional. If you like to listen to music or podcasts on your way to the office, you probably don't want to poke anyone's eye out with an unruly microphone sticking out. We've got you covered — unplug it and voilà, you're all ears.

Black is the new black ;)

Great parameters aside, the VIRO Plus USB is simply cute – the black minimalist design suits everyone and is comfortable to wear. With the soft memory foam earpads, your ears will be on cloud nine — snug like a bug in a rug. But don't sweat it, we also included a pair of summer-friendly fabric earpads, so you'll stay cool-headed even in the heat of the moment. And because they're comfy as hell, you won't even feel how fast time flies. We strongly recommend them for long family gatherings.

Hey, listen (through the sound card)!

Together with the VIRO Plus USB, you get a USB sound card with a 7.1 audio system. It has dedicated software that allows you to nitpick and fine-tune specific frequencies, and also save profiles for particular activities or music genres. With this, you can set (and save!) the sound in selected frequencies – different options for playing or listening to music. We don't want to brag (okay, we do a little), but this perk provides you with sound quality that most integrated laptop cards and motherboards won't give you.

Summary: ENDORFY VIRO Plus USB. Product type: Headset. Connectivity technology: Wired.

Recommended usage: Gaming. Headphone frequency: 20 - 20000 Hz. Cable length: 2.9 m, Product
