

## TP-Link 24-port 10/100Mbps Desktop/Rackmount Network Switch

Model: TL-SF1024D

Manufacturer: TP-LINK

EAN: 6935364020828

Product Code: 772486

## R1,707

### What This Product Does

The TL-SF1024D Fast Ethernet Switch provides you with a high-performance, low-cost, easy-to-use, seamless and standard upgrade to improve old network to 1000Mbps network. All 24 ports support auto MDI/MDIX, no need to worry about the cable type, simply plug and play. Moreover, with the innovative energy-efficient technology, the TL-SF1024D can save up to 75%\* of the power consumption and 80% of the packaging material can be recycled, making it an eco-friendly solution for your business network.

### High Performance

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The metal case design combined with a safety certified internal power supply make the Switch the most robust product which is very cost-effective for a less than 24 user environment. Featuring non-blocking switching architecture, TL-SF1024D forwards and filters packets at full wire-speed for maximum throughput. And IEEE 802.3x flow control for Full Duplex mode and backpressure for Half Duplex mode alleviate the traffic congestion and make TL-SF1024D work reliably.

## **TP-LINK Green Technology**

This new generation The TL-SF1024D Fast Ethernet Switch features the latest innovative energy-efficient technologies that can greatly expand your network capacity with much less power. It automatically adjusts power consumption according to the link status and cable length to limit the carbon footprint of your network. It also complies with the EU'S RoHS, prohibiting the use of certain hazardous materials. Besides, 70% of the packaging material can be recycled.

## **Easy to Use**

The auto features of this fast ethernet switch make installation plug and play and hassle-free. No configuring is required. Auto MDI/MDIX eliminates the need for crossover cables. Auto-negotiation on each port senses the link speed of a network device (10, 100, or 1000 Mbps) and intelligently adjusts for compatibility and optimal performance.
