

MOUSE USB OPTICAL G402/BLACK 910-004067 LOGITECH

Model: 910-004067

Manufacturer: LOGITECH

EAN: 5099206051768

Product Code: 772516

R1,455

Hyperion Fury is the world's fastest gaming mouse, with Fusion Engine sensor technology that can track reliably at 400 IPS. 8 programmable buttons and 4 DPI settings that can be shifted on the fly give you the precision you need to dominate the battlefield, while the fastest possible USB communication ensures that your timing is accurate to the millisecond. Lightweight materials and low-friction feet offer the most comfortable feeling possible so that your gaming sessions last as long as you can. Hyperion Fury offers a new level of speed and precision. Can you keep up?

- Fusion Engine. Our exclusive Fusion Engine delivers the highest tracking speed yet
- 8 programmable buttons. Achieve great results with the default configuration straight out of the box. Or, set up one-button triggers for actions that typically require digging into menus

- On-the-fly DPI shifting. Make the right moves in any game situation. Shift through up to 4 DPI settings, from pixel-precise targeting (250 DPI) to lightning-fast manoeuvres (4,000 DPI)
- Constant communication. With a 1-ms report rate, you can be confident that no matter how precise or fast your moves are, they will be communicated to the game at the highest possible speed
- Absolute comfort. We used thermal imaging to determine the right materials and zones to give the optimal feel and function. Lightweight materials and super-low friction feet help ensure that your gaming sessions last as long as you can
