High performance gaming mouse with 25K DPI sensor and full RGB LED lighting

Tap into your sensors

Take your gaming to the highest level with the YBAR+ - with a 25k high-performance sensor that offers up to 25,600 DPI, 50G acceleration, a polling rate of up to 1000hz, and tracking speed of 400 IPS, this mouse definitely brings the stats!

Eco awesome

If there’s one thing better than an awesome mouse, it’s an eco-friendly awesome mouse. With a design of up to 60% recycled plastics, the YBAR+ ensures greener gaming in a way that’s good for you and good for the planet too.

Raising the bar

This really is a next level mouse – a comfortable design, premium finish and low-friction gliding pads allow for comfortable, stylish and smooth movement for the entirety of your gaming sessions. Gaming next felt (or looked) so good!

Play your way

There’s nothing more individual than a player’s gaming style, which is why the YBAR+ enables you to play in a way that suits you. Six buttons, programmable by software, allow you to adapt the DPI speed, macros and lighting so you can keep those wins rolling in.
Let’s get lit
Join the cool click with the YBAR+. The mouse comes with full RGB illumination and adjustable colours and effects so you can spice up your gaming setup time and time again. Multicolour mastery!
