Logitech® Wireless Keyboard K360. Beautifully convenient. Conveniently compact. You'll enjoy more comfort with your laptop or netbook and a layout you're used to-in a space-saving design that's about 20% smaller than our standard keyboards. It's virtually hassle-free with a 3-year battery life* and plug-and-play setup that takes seconds. The things you do most are easier too, thanks to six Internet and media hot keys and 12 programmable F-keys.** Logitech Advanced 2.4 GHz wireless connectivity gives you the reliability of a cord with wireless convenience and freedom-all in a tiny Logitech Unifying receiver that's small enough to stay in your laptop and lets you add compatible devices to it.

* Keyboard battery life calculation based on an estimated two million keystrokes/year in an office environment. User experience may vary.

- Tired of hunching over your laptop to type? This compact keyboard lets you type in more comfort with a layout you're used to. And it's about 20% smaller than our standard keyboards, so it fits in your office, your living room or wherever you use your computer.
- Simplicity at its best. The three-year battery life practically eliminates the need to change batteries. Setup is a breeze, too. You just plug the receiver in, pull the battery tab and start IMing smiley faces to your friends.
- Want to turn up the volume on a YouTube™ clip? Or jump right to Amazon® or your Facebook® page? It's all at your fingertips with six hot keys and 12 programmable F-keys for instant access to the Internet, e-mail, play/pause, volume and more.
- Logitech® Advanced 2.4 GHz wireless connectivity gives you the reliability of a cord plus wireless convenience and freedom—fast data transmission, virtually no delays or dropouts, and 128-bit AES encryption.
- The tiny Logitech® Unifying receiver is small enough to stay in your laptop, so there's no need to unplug it when you move around. Plus, you can easily add another compatible mouse, keyboard or number pad—without the hassle of multiple USB receivers.
