Securely protect your files

Looking to protect personal information, financial records, or other sensitive files on the go? JumpDrive S80 includes an advanced security software solution with 256-bit AES encryption to help protect your essential files against corruption, loss, and deletion. Easily create a password-protected safe that automatically encrypts data. And for peace of mind, files that are deleted from the vault are securely erased and can’t be recovered.

Store it all with a wide range of capacities

JumpDrive S80 comes in a wide range of capacities— 32/64/128/256GB. These options make it easy to find one to suit your needs and store more of your data in one place.

Rigorously tested

All Lexar product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.
