

MOUSE PAD G440 HARD GAMING/943- 000099 LOGITECH

Model: 943-000099

Manufacturer: LOGITECH

EAN: 5099206064188

Product Code: 772764

R1,201

G440 features a low friction, hard polymer surface ideal for high DPI gaming, improving mouse control and precise cursor placement. Consistent surface texture improves sensor performance, especially when used with Logitech G gaming sensors. And the multi-layer construction with a rubber base and hard polymer core give G440 a stable foundation for precise in-game mouse maneuvers.

- Low surface friction. Low surface friction provides minimal resistance to the mouse feet when making the small movements common to high-DPI gaming, requiring less force to start or stop a movement and minimising the chance of overshooting cursor placement.
- Consistent surface texture. The consistent surface texture provides the sensor the optimal imagery for translating mouse movement into cursor movement, an improvement over often inconsistent or dirty table or desk surfaces.

- Matched to Logitech G sensors. Using a surface texture closest to the optimal testing environment, G440 gives gamers access to the fullest Logitech G mouse sensor accuracy and precision.
- Stable rubber base. High-DPI gamers make very subtle hand movements and even the slightest shift in the gaming surface can interfere with precise cursor control. The rubber surface ensures a stable base for mouse movement.
