

KEYBOARD CORDLESS K230 RUS/920-003348 LOGITECH

Model: 920-003348

Manufacturer: LOGITECH

EAN: 5099206030237

Product Code: 772882

R1,096

Logitech® Wireless Keyboard K230. The compact keyboard that brings fun to the basics. It's about 36% smaller than our standard keyboards but still has all the standard keys. You get a reliable wireless connection up to 10 meters (33 feet) away, with virtually no delays or dropouts-even in the busiest wireless environments-all in a tiny, plug-and-forget Logitech Unifying receiver.* A 2-year battery life and auto-sleep mean you can do more of what you love without the hassle of changing batteries.** It's got a sleek look you can customize with three colors of decorative battery covers. And the simple software-free setup will have you tweeting, blogging and IMing in no time.

* Wireless range may vary due to environmental and computing conditions.

** Battery life calculation based on an estimated two million keystrokes/year in an office environment. User experience may vary.

- Save space without missing a thing. The compact keyboard is about 36% smaller than our standard keyboards but still has all the standard keys—so doing the things you love is as easy as ever.
- You get a reliable connection up to 10 metres (33 feet) away, with virtually no delays or dropouts—even in the busiest wireless environments—thanks to the tiny Logitech® Unifying receiver with Logitech Advanced 2.4 GHz wireless connectivity. The receiver is small enough to stay in your laptop and lets you add up to five compatible devices to it, while 128-bit AES keyboard encryption helps keep your information secure.
- With a 2-year battery life and auto-sleep, you can catch up on Facebook® and email friends for years without the hassle of changing batteries.
- Want to make this sleek little keyboard a little more "you"? The battery door on top of the keyboard doubles as a fun design element with light gray, pink and blue options you can swap to suit your mood or décor.
- Setup couldn't be easier—you simply insert the batteries, plug the wireless receiver into a USB port on your computer and start tweeting, blogging and IMing right away without software.
