accelerated abrasion. Each key is made using "double-shot" technique where two layers of plastic are moulded into each other unlike the traditional method of laser etching characters, this makes the keycaps extremely resistant to friction.

PHENOMENAL AND COMFORTABLE

Classic finish (OEM profile) and attention to every detail are key elements that will positively affect the comfort for many hours of use. Do you like the keyboard backlight? No worries. Transparent characters easily let through the light coming out of the LEDs located in the switches of your keyboard, creating an amazing atmosphere, and improving efficiency even during night sessions.

FULL COMPATIBILITY

Genesis Lead 300 keycaps can be easily mounted on all standard mechanical keys of ANSI and ISO keyboards. Their installation is simple and fast. All you need do is press the keycap onto the mechanical switch. Included Keycap Puller will help you remove the keys quickly and efficiently without damaging them whatsoever.

AVAILABLE IN SEVERAL COLORS

Choose your favourite colour from as many as 6 colours. Mix them together and create a unique keyboard that only appears on your desk. It's simple.
