

TP-Link AX3000 Whole Home Mesh WiFi System

Model: HX510(1-pack)

Manufacturer: TP-LINK

EAN: 4897098684573

Product Code: 803439

R2,658

Fast. Stable. Everywhere.

AX3000 Whole Home Mesh WiFi System

Advanced Mesh Powered by WiFi 6

Armed with WiFi 6 technology, HX510 provides faster speeds up to 3.0 Gbps for buffer-free 8K/4K streaming and gaming even with all smart home, mobile, and other electronic devices connected.

Extensive WiFi Coverage

Beamforming technology and high-performance antennas combine to adapt WiFi coverage to perfectly fit home and concentrate signal strength towards every device.

Whole Home Coverage

Empowered by EasyMesh technology, HX510 provides a strong WiFi signal in every corner of your home. Wireless connections and optional Ethernet backhaul work together to link each unit, providing even faster network speeds and truly seamless coverage. Want more coverage? Simply add another HX510 unit whenever you want.

Seamless Roaming with One WiFi Name

All units work together to form one unified network. Your mobile device will automatically connect to the fastest unit when you move through your home, creating a truly seamless WiFi experience.

More Connections, No More Buffering

Enhanced by WiFi 6, featuring with OFDMA and 160 MHz bandwidth, HX510 allows you to connect more devices simultaneously. Enjoy a more efficient network that loads faster without dragging down performance.

2-in-1 Router and Access Point

Flexible and multifunctional, HX510 includes a variety of features to serve as a router or access point. Choose the mode for actual network demands and experience maximum wireless flexibility.

More Ethernet Ports for More Options

Each unit has 3 Gigabit Ethernet ports for fast and reliable wired connections. Supports Ethernet Backhaul for more stable speeds.

Robust Network Protection

WPA3 Security

Higher password safety and enhanced protection against brute-force attacks

Parental Controls

Block inappropriate content and restrict time spent online

Multi-SSID

Create separate networks for visitors and keep your main network secure

Easy to Set Up and Use

You can set up your device and network in minutes, whether you prefer the powerful Aginet app or the intuitive web interface. The Aginet app allows you to manage your network from a smartphone or tablet.

Support TR-069 Remote Management

ISPs can remotely configure and manage devices via their ACS (Auto-Configuration Server) system or the Aginet ACS. High-level operations are also supported thanks to compatibility with TR-181, TR-111, and TR-143 protocols.

Aginet Solution: End-to-End Management System for ISPs

The Aginet solution offers ISPs powerful and flexible platforms to manage multiple devices for connected homes, such as dynamic service provisioning, zero-touch firmware upgrading, and remote troubleshooting and mesh WiFi diagnostics.
