Save Energy, Stay Connected

Eco-Mode optimizes power consumption by regulating the sleep time of connected devices while efficiently managing how frequently they send and receive data.

Safe & Secure

To protect your personal data better, Acer Connect Vero W6m meets the cyber security standards set by the European Commission's Radio Equipment Directive, so you can stay connected with better peace of mind.

Build Your Network

Enjoy a range of up to 465 sqm with a dual mesh system or upgrade to a triple mesh system for a range of up to 700 sqm and eliminate those dead spots with seamless mesh network support for up to 4 units for fast, reliable internet from anywhere in your home.^{1,3}

Streamline Your Connection

Detect and accelerate network traffic with Hybrid Quality of Service, which prioritizes key websites and apps for a more enjoyable and uninterrupted online experience.
