a 200Hz (O/C) refresh rate, which loads images 200 times in a second.

Brilliant play from wide angle

Experience great colour accuracy and vivid game scenes with nano IPS technology. Enjoy a vibrant gaming experience with a 98% DCI-P3 colour spectrum.

Outstanding colour performance

This monitor supports 98% coverage of the DCI-P3* spectrum by applying nano-sized particles in Nano IPS, which help with the reproduction of vibrant colour.

Designed for Incredible Speed

1ms Nano IPS display minimises afterimage and delivers fast response time, letting you enjoy a whole new gaming performance.

Experience true colours

Regardless of the battlefield, this monitor allows gamers to see the dramatic colours that the game developers intended, by reproducing high-fidelity colours with VESA DisplayHDR™ 400.

Gamer-centric design

Enhance your gaming experience with a 3-side virtually borderless design for an immersive viewing. The adjustable base, which supports tilt, height, and pivot, helps you play games more comfortably.

Award-winning gaming GUI

Gamers can use On-Screen Display and OnScreen Control* to easily adjust basic monitor options or register user shortcuts via the "User Defined Key".

Dynamic Action Sync

Dynamic Action Sync Mode allows you to see the action as it occurs in real time so that you can react immediately rather than respond after the delay of internal frame processing.

Black Stabiliser

Black Stabiliser Mode brightens dark areas and gives you better visibility in dark scenes. It can make dark areas brighter to help you find the enemy or game objectives hidden in the dark.

Crosshair

The Crosshair feature helps enhance accuracy in first-person shooter games.

FPS Counter

The FPS Counter will let you see how well everything is loading. Whether you're editing, playing games, or watching a movie, every frame matters, and with the FPS Counter, you'll have real-time data.
