Supporting OpenVPN and WireGuard®, TL-WR1502X maintains your network's privacy and security, whether you're working remotely abroad or using public WiFi. This device can simultaneously run a VPN and regular internet connections, offering protection and flexibility.

Your Tacit Companion on the Road

Say Goodbye to Messy Files and Cable Clutter

- Your Digital Filing Cabinet

By plugging into an external drive, keep all your important files in one secure hub accessible to every device on your network.

- Your Flexible Mobile Router

The Type-C interface let you flexibly turn it into a mobile router with a power bank. And, you can charge other devices with the same cable you use to charge the router.
