All-in-one Device

Combines 4G Internet access, Wi-Fi 6 wireless technology and 3 Gigabit PoE in/out ports all in one device, and automatic back up and load balancing between 4G and wired WAN can be reached. Enjoyed a powerful and versatile gateway with easy deployment.

Specially Designed Weatherproof Enclosure for Outdoors

Rated as IP55 during Ingress Protection testing, a resilient weatherproof enclosure protects the gateway against harsh outdoor conditions.

Multiple Power Supply Options

Powered by PoE or DC (compatible with solar panels) to overcome mains access limitations.

Plug and Play

Insert a Nano SIM card or connect to an Ethernet WAN Port to get gigabit Wi-Fi. Enjoy hassle-free connect to surveillance cameras via cable or wireless.

Centralized Management

Enables to easy network setup across multiple sites without sending engineer for on-site configuration. Remotely manage via Omada app or web, offering the Essentials version of cloud services for free, reducing maintenance costs for MSP/SI.

Easy Installation

Easy to mount to a wall or pole with the provided mounting kits. Its compact design allows you to place the gateway flexibly.
