SHARPEN YOUR AIM

Sharpen your aim with the ROG Hone Ace XXL gaming mouse pad. It has a hybrid-cloth surface designed for superior control and a protective nano coating for durability. The base of the Hone Ace XXL is made of memory-foam polyurethane, which provides excellent bounce feedback and keeps the mousepad securely in position in the most heated moments.

WE GOT YOU COVERED

Measuring 900 x 400 mm, the ROG Hone Ace XXL provides plenty of room for flexibility, especially for players who need ample movement space with lower mouse DPI settings.

A MOUSE PAD THAT GRIPS

Experience stability like never before, with every intense flick and swipe. The ultimate anti-slip base is made of an innovative polyurethane material – a high-density memory foam that ensures the mousepad spreads out and adheres seamlessly onto your desk while providing extra cushioning for excellent stopping power.

EXTREME STABILITY

A base that grips securely onto the desktop

EXCELLENT CONTROL

Incredible feedback that provides room for micro mechanics and instant stopping

EXTRA CUSHIONING AT 3MM

Apart from upgraded comfort, the softness of the base material smooths out hand jitters for a more consistent performance

SMOOTHER GLIDES. PRECISE STOPS.

The hybrid cloth fabric provides a textured surface with optimal friction, balanced in both fast glides and stopping power for accurate control. Near-perfect uniform tracking along the X and Y axis means that movements in all directions are smooth and consistent, making it ideal for tracking practices.

ANTI-FRAY STITCHING

Stitching along the edges greatly enhances durability and also offers comfort for the user.

WATER-, OIL- AND DUST-REPELLENT SURFACE

The military-grade protective nanocoating on the ROG Hone Ace XXL guards against accidental spills. It’s easy to clean and maintain for a consistent and responsive tracking surface that holds up over time.
