1. Router Mode

Connect to the Ethernet to instantly create a private wireless network and share internet access to all your Wi-Fi devices.

2. Access Point Mode

Transform your existing wired network to a wireless one.

3. Range Extender Mode

Boost the existing wireless coverage in your room.

4 Antennas & Beamforming for Maximum Coverage

Equipped with four external antennas, Archer C50 creates stronger and more reliable networks for all to enjoy in your home. Beamforming technology concentrates the Wi-Fi signal towards your connected devices, providing better Wi-Fi range and network performance.

Easy Parental Control

Supervise children and staff with responsible access, controlled by parents or administrators. Use keywords to easily set up a black list and limit the level of web access.

Guest Network Access

Allow guests to join your Wi-Fi network while protecting your privacy. Make sharing easy, maintain security. The captive portal helps maintain only authorized guests to use the network, presenting devices with a convenient, user-friendly authentication method to grant Wi-Fi access. Easily share your Facebook account with anyone who connects to your network.

Connect More Devices Simultaneously

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. Archer C50 helps your devices achieve optimal performance by making communication more efficient with MU-MIMO technology. Two simultaneous data streams, allow all connected devices to achieve faster speeds than standard AC routers.

Easy Setup and Use

Set up the Archer C50 in minutes thanks to its intuitive web interface and the powerful Tether app. Tether also lets you manage its network settings from any Android or iOS device, including parental controls and access control.

IPv6 Supported

Future-proof your network with IPv6 (Internet Protocol Version 6) support

IPTV

Improve your IPTV streaming experience with IGMP Proxy/Snooping Bridge and Tag VLAN

LED Control

Easily schedule the LED on or off to your needs, no blinking light disturbing your sleep

Tether APP

Tether APP lets you manage your network settings easily from any Android or iOS device
