D-Link 6-port Multi-Gigabit Unmanaged Switch

Model: DMS-106XT

Manufacturer: D-LINK

Product Code: 840493

R5,460

Enjoy reliable 10 Gigabit wired Ethernet.

Enjoy an ultra-fast 10-Gigabit uplink, five 2.5-Gigabit ports, Turbo Mode for port-based QoS prioritisation and multicoloured LED lighting, allowing you to eliminate network bottlenecks to maximise performance and throughput to your network.

Turbo Mode

Ultra-low latency and port-based QoS prioritisation for uninterrupted online gaming and 4K streaming

Plug and play

Ready to perform right out of the box with no configuration required

Multicoloured LED

Conveniently indicates Turbo Mode status

Silent Operation

Fanless design for a noise-free working environment that enhances reliability

Metal Casing

Premium gunmetal grey, aluminium alloy housing

Multi-Gigabit

x1 10G and x5 2.5G Multi-Gigabit ports for high data rate speeds

Power Efficiency

Low power consumption design

QoS Magenement

Quality of Service for uninterrupted connections

Multi-Gigabit fast connectivity.

The 10-Gigabit uplink provides a high-bandwidth connection to your network core or network-attached storage (NAS) device, allowing users to access network resources and transfer large multimedia files at lightning-fast speeds. It comes with x5 2.5-Gigabit ports for maximum throughput and performance - ideal for enjoying unrestricted Wi-Fi 6 devices, high-end gaming computers and workstations.

Boost network performance with Turbo Mode.

Simply press the Turbo Mode button when you're ready for port-based QoS prioritisation for ultra low latency during critical operations. Experience large multimedia file transfers and high quality video calls running at maximum network speeds every time.

Designed for advanced home and office-grade networks.

With x1 10G port and x5 2.5G ports, the switch is fast and versatile enough to handle large multimedia file transfers to-and-from a storage server with ease, and it keeps your Wi-Fi 6 router and AP communications unrestricted. And the premium gunmetal aluminium housing features a fanless design for enhanced reliability, silent operations, and low power consumption.
