R1,402

An Affordable, Scalable Business Wi-Fi Solution

300Mbps Wireless N Ceiling Mount Access Point.

Cloud Centralized Management

- Anytime, Anywhere

Omada Hardware Controller OC200 and Omada Software Controller make it easy to manage and monitor the whole Omada network in real-time, while cloud service enables remote and secure access no matter where you find yourself.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Efficient Guest Authentication with Facebook and SMS Support

Captive portal helps maintain only authorized guests to use the network, presenting devices with a convenient, user-friendly authentication method to grant Wi-Fi access. The addition of SMS and Facebook authentication simplifies the captive portal even further to simplify connectivity and boost your business.

Timesaving and Flexible Deployment

The Omada EAP115 is designed for easy installation on any wall or ceiling. The Power over Ethernet (PoE) function allows your network cables to carry electrical power so you minimize on cable clutter. It’s one more hardwiring hassle you don’t have to worry about when operating your centralized management system.

Easy Management with the Omada App

Follow configuration instructions on the free Omada app to get set up in minutes. Omada lets you configure settings, monitor the network status and manage clients, all from the convenience of a smart phone or tablet.

Meet Our New Hero Product!

The OC200 Omada Hardware Controller is dedicated to providing centralized management for the whole Omada network.
