

AG Neovo QX-55 **139.7 cm (55")** **3840 x 2160** **pixels**

Model: QX550011E0100

Manufacturer: AG NEOVO

EAN: 4710739593976

Product Code: 853832

R57,729

The QX-55 55-Inch 4K surveillance display is designed for high-resolution security systems. Multi-screen viewing enables the simultaneous display of multiple signals with up to 4 split screens. In addition to simplifying hardware setup by enabling the use of one display in place of four 1080p monitors, the QX-55 provides the gain in clarity required for real-time and up-close monitoring in traffic management centres, casinos, emergency operations centres and other public installations.

EXPERIENCE THE 4K DIFFERENCE

Don't miss a single detail with this powerful 4K security & surveillance display. View smooth 4K video and graphics with a new level of detail and clarity. Offering 8.3 million pixels, the QX-55 55-Inch 4K surveillance display provides sufficient resolution for even the most demanding surveillance and digital signage applications.

EASY CONTROL AND INTEGRATION

Its built-in RS-232 and Ethernet control capabilities make the QX-55 easy to control and integration a

breeze. Whether it is a local serial management connection or a remote network installation, the display can be managed in multiple scenarios and applications.

MULTI-SCREEN VIEWER; ONE DISPLAY, FOUR SCREENS

Beyond traditional two-input Picture-by-Picture (PIP) feature, the multi-screen viewer can display up to four full HD screens simultaneously from four different input sources. This advanced feature allows it to replace a typical four monitor setup and delivers four-quadrant viewing at crisp and true Full HD content.

INDUSTRY-LEADING RELIABILITY

Designed for 24/7 operation, these durable metal-housed displays protected with NeoV™ Optical Glass screen take advantage of superior components to ensure a long product lifetime. Its integrated HeatControl sensors automatically activate the internal cooling fans, which is crucial when the temperature rises in mission-critical installations.

PID COMMAND & CTRL SOFTWARE

PID Command & Ctrl is a software that allows users to control AG Neovo security & surveillance display via LAN or RS232 connections. It provides a simple and intuitive interface for remote management, OSD-related settings, and easy control on deployed displays. It also can be used to create video walls within minutes and assist system integrators with setting up displays.
