TUF gaming VG328H1B

TUF Gaming VG328H1B is a 31.5-inch, Full HD (1920x1080), curved display with an ultrafast 165Hz refresh rate designed for professional gamers and those seeking immersive gameplay. Those are some serious specs, but not even the most exciting thing the VG328H1B has in store. Its impressive curved display features a 165Hz refresh rate and Adaptive-Sync (FreeSync™ Premium) technology, for extremely fluid gameplay without tearing and stuttering.

31.5-inch immersive curvature

The 31.5-inch Full HD (1920 X 1080) panel of TUF Gaming VG328H1B delivers stunning visuals from all angles with an 1500R curvature that ensures every point is equidistant to your eyes. This contributes to greater viewing comfort — even during extended use —and lets you enjoy a wide viewing angle with less distortion and color shift when gaming and watching movies.

165Hz Refresh Rate

TUF Gaming VG328H1B 165Hz* refresh rate decimates lag and motion blur to give you the upper hand in first person shooters, racers, real-time strategy, and sports titles. This ultrafast refresh rate lets you play at the highest visual settings and lets you react instantly to what's onscreen — so you'll get that first strike in.

EXTREME LOW MOTION BLUR

VG328H1B Features the latest ASUS-exclusive Extreme Low Motion Blur technology, which achieves 1ms MPRT to eliminate smearing and motion blur, and makes objects in motion look sharper, so gameplay is more fluid and responsive.

Shadow Boost

ASUS Shadow Boost technology clarifies dark areas of the game without overexposing brighter areas, improving overall viewing while also making it easier to spot enemies hidden in dark areas of the map.

GamePlus

The ASUS-exclusive, integrated GamePlus hotkey offers in-game enhancements that help you get more out of your game. This function is co-developed with input from pro gamers, allowing them to practice and improve their gaming skills.

GameVisual

ASUS GameVisual Technology has seven pre-set display modes to optimize visuals for different types of content. This unique feature can be easily accessed through a hotkey or the on-screen display settings menu

Flicker-Free technology

Flicker-Free technology reduces flicker to minimize eyestrain for improved comfort when you're embroiled in long gaming sessions.

Ultra-Low Blue Light technology

ASUS Ultra-Low Blue Light technology reduces the amount of potentially harmful blue light emitted by the display. Four different filter settings are available to control the amount of blue light reduction.

Rich connectivity

Extensive connectivity options, including, HDMI (v2.0), D-sub, Earphone Jack support a wide array of multimedia devices.

Ergonomic design

With an ergonomically-designed stand, TUF Gaming VG328H1B provides tilt and swivel so you can easily find your ideal viewing position. The display is also VESA-compatible for wall mounting.
