VY229Q EYE CARE MONITOR

LEARN, WORK & PLAY, THE HEALTHY WAY

ASUS VY229Q Eye Care monitor is designed with your health in mind. It features new ASUS Eye Care Plus technology, a proprietary long-lasting antibacterial treatment on the bezels and hotkeys, and an advanced IPS FHD panel that delivers exceptional visuals. Ideal for eLearning, work or entertainment, the combination of a 75Hz refresh rate and Adaptive-Sync support ensures you'll enjoy consistently smooth visuals with any content.

Perfect for work, everyday computing and casual gaming

Whether you're working, learning, watching a movie or gaming, you're sure to enjoy bright and

smooth visuals with VY229Q.

IPS panel technology for an astounding 16.7 million colors

The 21.45-inch FHD (1920 x 1080) IPS panel offers a palette of 16.7 million colors, so photos and videos have stunning detail and realism. The panel also offers 178° viewing angles to ensure excellent image quality from almost any perspective.

75Hz refresh rate and Adaptive-Sync™ for smooth visuals

A 75Hz refresh rate and 1ms Moving Picture Response Time (MPRT) help reduce smearing and motion blur, making VY229Q perfect for fast-paced games that require quick reactions to what's happening onscreen. In addition, Adaptive-Sync technology helps eliminate screen tearing and choppy frame rates for ultra-smooth gameplay.

Protect your eyes with Eye Care+ technology

Color Augmentation Mode

Easily distinguish colors

Color Augmentation mode helps users with a color-vision deficiency differentiate colors. The mode lets users customize onscreen reds, greens, yellows and blues into hues that are easier to distinguish, improving the viewing experience.

Rest Reminder

It's time to take a break

Taking a brief 10-minute rest every half hour or so, or adopting the 20-20-20 rule, can help prevent eye strain. The Rest Reminder feature lets users set pop-up reminders at 5-minute intervals, noting when it's time step away from the screen.

Adjustable ASUS Blue Light Filter

An integrated TÜV Rheinland-certified ASUS Blue Light Filter protects eyes from harmful blue light. Settings can be quickly accessed via the onscreen display (OSD) menu, and an intuitive slider makes it easy to adjust filter levels to suit any scenario or user preference.

Flicker Free Technology

Say goodbye to tired, strained eyes

Integrated TÜV Rheinland-certified ASUS Flicker Free technology reduces onscreen flicker to ensure comfortable viewing. This technology helps minimize instances of eyestrain that can result from long sessions in front of a display.

Long-lasting antibacterial treatment

Stay clean, stay healthy

The bezels and hotkeys on VY229Q feature an antibacterial ionic silver treatment¹. By preventing bacteria adhesion² by up to 99.9%, it keeps key areas of the monitor clean and hygienic, potentially reducing the spread of harmful bacteria.

VY229Q has been subjected to the ISO 22196 Antimicrobial Activity and Efficacy tests conducted by independent testing lab TÜV Rheinland.

How Ionic Silver works

Positively-charged silver (Ag^+) ions bind with the cell walls of negatively-charged microbes and bacteria, disrupting their internal functions and killing them off.
