This ergonomic gel mouse pad has a soft, gel-filled rest for an ultimately comfortable wrist position while typing. Engineered for long hours spent at work or gaming, the ergonomic design prevents strain and wrist injuries associated with repetitive actions and incorrect hand positioning. The gel surface molds exactly to the shape of your wrist, reducing friction and tension. The base of the pad features a slip-resistant surface for maintaining the correct desk position. It is also compatible with all available mouse types such as ball, optical and laser mouse.
