

ASUS TUF GAMING LC II 360 ARGB Processor Liquid cooling kit 12 cm Black

Model: 90RC00M1-M0UAY0

Manufacturer: ASUS

EAN: 4711387267394

Product Code: 859457

R3,146

TUF GAMING LC II 360 ARGB

STEADFAST COOLING

The TUF Gaming LC II ARGB series of durable CPU liquid coolers delivers the performance and features you need to bring out the best in mainstream gaming builds. Coolant flows through an illuminated coldplate to reinforced sleeved tubing that arrives at a high-capacity radiator chilled by three 120 mm ARGB fans – which are groove-bladed for optimal airflow and reduced noise. Meanwhile, Aura Sync ARGB elements illuminating the radiator fans and the pump cover's TUF Gaming logo ensure that you arrive in style.

OPTIMIZED COOLING

Each radiator fan is specifically tuned to deliver superior cooling efficiency with TUF Gaming LC II

series radiators, generating 67 CFM per 3.0 mm H2O.

Fan Blade Groove Design

The blades of each radiator fan are enhanced with a precision-engineered groove on the blade tip that improves airflow and reduces fan noise.

IP5X-Certified Dust Resistance

The radiator fans in the TUF Gaming LC II ARGB series are certified under the International Protection Marking (IP code) as IP5X dust resistant for improved reliability and a longer lifespan. This stringent certification process helps to ensure that TUF Gaming LC II coolers provide optimal fan performance, even under severe conditions.

PWM-Controlled Pump and Fans

Pulse width modulation control enables both the pump and radiator fans to spin at slower speeds when the CPU is idling or under light load, helping to keep noise levels to a minimum.

ADVANCED CUSTOMIZATION

Show Off Your Style

TUF Gaming LC II ARGB series coolers add a vibrant burst of color and sleek style to the heart of your build. The radiator fans and TUF Gaming logo on the pump housing glow with Aura ARGB lighting, and their colors and effects can be customized to match your system, so you can create a unified look that is totally your own.

Comprehensive Support

The TUF Gaming LC II ARGB series is compatible with a wide range of Intel® and AMD CPU sockets, giving you the flexibility to pair it with your choice of processor. An ample 40 cm of tubing also makes these coolers adaptable to a wide range of builds.

SIX-YEAR WARRANTY

World-Class Support

To show our confidence in the premium durability of the TUF Gaming LC II 360 ARGB, we proudly support it with a 6-year worldwide warranty.
