IronWolf is built with AgileArray. NAS-optimised for the best NAS experience possible, AgileArray focuses on drive balance, RAID optimisation and power management.

- Dual-plane balance and Rotational Vibration (RV) sensors — available on 6 TB, 8 TB and 10 TB capacities — mitigate vibration in multi-bay NAS enclosures for consistent performance and reliability
- RAID optimisation increases performance and reliability with error recovery control for better data integrity
- Advanced power management saves energy and delivers power when the NAS needs it most

## Do More With Multi-User Technology

Do more with your NAS with multi-user technology. Enabling user workloads of up to 180 TB/year on IronWolf, multiple users can confidently upload and download data to a NAS server. Whether you’re a creative pro or a small business, IronWolf is on your side.

## Be Creative Anywhere With IronWolf and Your NAS

Extensible and reliable storage helps keep you and your creative business on schedule. IronWolf is a great companion for your NAS for 24×7 remote access, backups and file sharing from anywhere, making sharing ideas easy. For growing agencies and the need for more storage, IronWolf is built to address NAS scalability challenges.
