things done, anywhere. Everything about Vivobook 15 is bold and improved, from its powerful AMD Ryzen™ 7 Processor to its crisp and clear display, 180° lay-flat hinge, modern colors and sleek geometric design. Make a fresh start today with Vivobook 15!

Performance

Fueled to perform

Vivobook 15 is your everyday companion that's always ready to make light work of your agenda, whether it's office or personal, presentations or play. For demanding workloads, the latest AMD Ryzen™ 7 7730U Processor is faster than the previous generation. And with 16 GB of fast memory and 1 TB of speedy SSD storage, there's plenty of power in reserve when the going gets tough.

Display

Easy on your eyes

Give your eyes a treat with Vivobook 15's clear, slim-bezel NanoEdge display (also available as an optional touchscreen). It has wide viewing angles, and is TÜV Rheinland-certified for low blue-light levels, reducing the risk of eye strain during marathon viewing sessions.

Audio

A new perspective on laptop audio

Designed with help from the audio experts at DTS, a professional audio solution provider, the audio system delivers the most immersive, clear, and balanced sound experience you've ever heard on a PC, laptop or tablet. You'll hear a wider and deeper soundscape than you could imagine, unleashing the full audio potential of your laptop.

Design

Colors that pop

Vivobook 15 is never ordinary, with a clean design and three eye-catching colors. Choose from charming Quiet Blue, distinguished Cool Silver, or cozy Terra Cotta — whichever says 'that's me!' It's slim enough to pop unobtrusively into any backpack, and light enough for easy one-handed carrying.

ErgoSense Keyboard

Brilliantly nuanced ErgoSense keyboard

It's our mission at ASUS to elevate human interaction with technology to a higher and more intuitive level than ever before. The latest ASUS ErgoSense keyboard are engineered to enable an unrivaled

input experience that's in harmony with how you move, feel and touch. Your comfort is our highest priority. That's why the ErgoSense keyboard has an incredibly satisfying feel, with the optimum bounce and travel calculated with fine-tuned precision. Experience the ErgoSense keyboard, and you'll soon find yourself cruising effortlessly through your work.

Optimal click ratio: Engineered to perfection

The feel of a keyboard depends on the crucial ratio between the peak force (also known as the actuation force) and the contact force. Peak force occurs when you press down on the key and reach the maximum force that the key's underlying rubber dome can withstand without deflecting. Contact force occurs when the bottom of the key touches the circuit board to trigger an electronic signal, which in turn generates the action appropriate to the key. To achieve the most natural feel for a keyboard, ASUS keyboard experts have scientifically determined that the optimal ergonomic click ratio for a key is between 45-60%. These forces are precisely measured and tuned using the ASUS-designed rubber domes beneath the keys.

ASUS Antimicrobial Guard Plus

Inhibit 99% of COVID-19, flu virus & bacteria*

ASUS Antimicrobial Guard Plus is applied to frequently touched areas of your laptop to help keep it hygienic. This technology uses a denser treatment* that inhibits viruses and bacteria. And it is scientifically shown — using the ISO 2170210 and 2219611 standards — to inhibit virus and bacteria growth by more than 99% over a 24-hour period⁴. Strains used for the tests include the SARS-CoV-2 (COVID-19), H3N2 (Influenza A) and the E. coli bacterium¹².

* ISO 21702 tests for SARS-CoV-2 Variants (Omicron, BA.5), H3N2, H1N1 and ISO 22196 tests for Staphylococcus and E. coli.

* Treatments¹³ are approved by US FIFRA¹⁴ & EU BPR¹⁵.

ASUS Antimicrobial Guard Plus

viruses and bacteria inhibition

Viruses and bacteria are everywhere in our daily life. Antimicrobial Guard Plus inhibits all viruses and bacteria with an envelope (the outermost layer of many types of viruses and bacteria) from the surface of the protected parts. ISO 21702 testing shows that it can inhibit the growth of SARS-CoV-2 (COVID-19), H1N1, H3N2 (Influenza A) and harmful bacteria.

Silver ions prevents 99% reproduction

ASUS Antimicrobial Guard Plus is a surface coating²⁰ on the laptop²¹ that contains positively-charged silver ions. Silver ions and negatively-charged microbial cells are attracted to each other and then pierce the surface to damage their structure, inhibiting reproduction.

Without ASUS Antimicrobial Guard Plus, an estimated sample of 10,000 (pfu/ml) cells grew to 28,000 (pfu/ml). Performing the same test with Antimicrobial Guard Plus saw the count reduced to just 16 (pfu/ml) — a growth restriction of more than 99%.

User Friendly Design

Safe and secure

Physical webcam privacy shield

Vivobook 15 takes your privacy and security seriously. There's an integrated privacy shield that slides over the webcam for instant privacy, shielding you against prying eyes and disturbances.

Unlock in one touch

Accessing your Vivobook 15 has never been easier or more secure. With the optional fingerprint sensor³ on the touchpad and Windows Hello, there's no need to type in your password every time — all you need is just a single touch.

Wide open for sharing

The 180° lay-flat hinge makes it so much easier when you want to share stuff with those around you, too. The optional keyboard backlight on Vivobook 15 is perfect for working in dim environments.

Webcam

Standout webcam effect - ASUS 3DNR

ASUS 3D Noise Reduction (3DNR) Technology significantly upgrades the webcam image clarity for clearer conference calls.

Noise Cancellation

Next-level ASUS AI Noise-Canceling Technology

To provide exceptional remote-working and video-conferencing experiences, Vivobook 15 features

ASUS AI Noise-Canceling Technology that employs machine learning in order to isolate unwanted

noise from human speech. This technology helps to filter out ambient noise for optimum group conference-call quality.

Conference Call

Conference calls with more possibilities

Conference calls can be single-presenter or multi-presenter, gathered around a single laptop with voices coming from various directions. With the upgraded system enabled via the MyASUS app, it detects and optimizes audio from either one direction or from all directions — ensuring top conference call audio quality.

Single presenter conference call

Single-presenter conference call mode can filter out noise and other voices, and ensures only the voice in front of laptop can be heard. When you switch on the Target Speaker Tracking mode it can even target and track new talkers within a 180° arc, making the feature ideal for recording large groups as well as for individuals.

Multi-presenter conference call

Multi-presenter conference call mode filters out ambient noise whilst identifying multiple voices from all directions and distances, so all voices can be heard more clearly.

Connectivity

Perfect in every detail

Vivobook 15 keeps you fully connected with its comprehensive I/O ports. There's a USB-C® 3.2 Gen 1 port, two USB 3.2 Gen 1 Type-A ports, a USB 2.0 port, HDMI® output and an audio combo jack — so it's easy to connect all your existing peripherals, displays and projectors.

WiFi Connectivity

Fine-tuned with ASUS WiFi Master technology

ASUS offers a comprehensive range of wireless connectivity solutions. With up to WiFi 6E fast resolution along with ASUS WiFi Master technology, Vivobook 15 enhances fast and stable connection.

Military-grade

World's most strictly tested US military-grade laptop durability²⁵

ASUS laptops⁵ are engineered with extraordinary toughness meet the exacting US MIL-STD-810H military-grade standard, undergoing 12 rigorous test methods and 26 punishing test procedures — exceeding industry standards. The upshot is a range of products that are renowned for reliability and durability. These factors also inherently benefit longevity and thus sustainability, so you can work, travel or relax with the confidence that your ASUS laptop is ready for the real world — today, and long into the future.

Software

Truly personalized workflow

MyASUS hosts a collection of handy ASUS apps and tools that help you get more out of your laptop. GlideX is a powerful cross-device screen-sharing solution. ScreenXpert helps you to manage app windows across displays connected to your ASUS PC, giving you full control of your workflow!

Software

MyASUS

MyASUS provides easy access to ASUS apps that are designed to help you maintain your system, update your software, optimize your PC's performance, and contact ASUS for after-sales support.

Software

GlideX

GlideX is a cross-device screen-sharing solution that uses wired or wireless connections to give you a bigger and better space for work and play. GlideX optimizes your workflow in the blink of an eye!

Software

ScreenXpert for ASUS PCs

ScreenXpert for ASUS PCs — which you can download from Microsoft Store or find in your PC's Start menu — helps you to manage app windows across displays connected to your ASUS PC and puts you in full control of your workflow!
