COMPACT, WITHOUT COMPROMISE

ROG Falchion is a 65% form-factor wireless mechanical keyboard designed to change the way you play. It has an interactive touch panel and innovative two-way cover case, and it's the first ROG keyboard with wireless Aura Sync RGB lighting. The keys feature durable ROG polybutylene terephthalate (PBT) doubleshot keycaps and German-made Cherry MX RGB mechanical switches for precise, tactile keystrokes. ROG Falchion utilizes a gaming-grade 2.4 GHz RF connection for 1 ms report rate and offers up to 450 hours of battery life on a single charge.

65% FORM FACTOR FOR A MINIMALIST SETUP

The ROG team aimed to provide a compact keyboard without compromise, masterfully incorporating arrow and navigation keys into a 65% keyboard layout. And at just 306 mm in length, ROG Falchion is almost the same size as a 60% keyboard. It gives you all the functions of a normal keyboard without taking up much desktop space.

INTERACTIVE TOUCH PANEL

An innovative touch panel on the left flank of ROG Falchion lets you conveniently adjust volume, or create shortcuts for switching apps, or copying and pasting. It can also be programmed for use as a macro key for more intuitive controls for gaming.

DURABLE PBT

DOUBLESHOT KEYCAPS

ROG PBT Doubleshot Keycaps provide a unique and premium feel, as well as offer long-lasting durability. Key design has been optimized with mid-height keycaps and a shorter stem to reduce key wobble and provide a more comfortable user experience. The precise double-shot molding process results in translucent keycaps* that feature seamless ROG script for a unique look, giving ROG Falchion consistent lighting and a look that's unmistakably ROG.

*Keycap material may vary by region. Keycap puller not included.

POLYCARBONATE KEYBOARD COVER

The transparent polycarbonate keyboard cover provides superb protection when you're storing or taking ROG Falchion to LAN parties. The cover can also be placed under the keyboard when in use, to give the underside RGB lighting a diffused look.

WIRELESS AURA SYNC PER-KEY RGB LIGHTING

ROG Falchion is the first keyboard to feature wireless Aura Sync RGB lighting. With Aura Sync RGB, the entire color spectrum and a range of dynamic lighting effects are at your command, so you can

create a keyboard that's uniquely yours. Customize and shine in your own way, wirelessly.

Note: Lighting synchronization between ROG mice and keyboards is enabled and controlled via Armoury Crate software, while synchronization with other components is enabled and controlled via ASUS Aura Sync software.

CHERRY MX RGB SWITCHES

ROG Falchion utilizes Cherry MX RGB switches to provide the precise mechanical feel preferred by gamers and enthusiasts. The premium German-made switches are renowned for delivering optimal actuation and responsiveness with every keystroke.

Linear response without audible click

Smooth keystrokes with a softer spring for fast and precise actuation

Actuation: 45g

Key-travel distance: 2mm to actuate, 4mm to bottom

Light tactile feedback without audible click

A less-distinct tactile bump than the blue switch, while providing enough feedback for the activation to be felt

Actuation / tactile force: 45g / 55g

Key-travel distance: 2mm to actuate, 4mm to bottom

Strong tactile feedback with an audible click

Distinct tactile bump can be felt easily, providing a satisfying typing experience

Actuation / tactile force: 50g / 60g

Key-travel distance: 2.2mm to actuate, 4mm to bottom

Linear response without audible click

The fastest Cherry MX switch that's 40% quicker than the standard switch, with no pressure points and light actuation

Actuation: 45g

Key travel distance: 1.2mm to actuate, 3.4mm to bottom

ARMOURY CRATE

Armoury Crate is a software utility designed to give you centralized control of supported gaming products, making it easy to tune the look and feel of your system. From a single intuitive interface, Armoury Crate lets you easily customize RGB lighting and effects for compatible devices and synchronize them with Aura Sync to create a unified lighting scheme across your system. Armoury Crate also allows you to customize user profiles, map keys, record macros, and even track hardware stats during gameplay.

FAST-CHARGE

A 30-minute charge time lets you play for up to 32 hours with RGB lighting off.

ONBOARD MEMORY

Save up to six profiles, including up to five custom schemes, and use them anytime, anywhere.

100% ANTI-GHOSTING & N-KEY ROLLOVER

Every keystroke is registered accurately, no matter how many keys are pressed.

TOUCH PANEL AND WINDOWS LOCK KEYS

Disable the touch panel and Windows key with a single press for undisturbed gaming.

FUNCTION LOCK KEY

Toggle between Number or Function (Fn) key input to easily switch modes for different scenarios.

ON-THE-FLY MACRO RECORDINGS

Record macros on the fly and map them to fully programmable keys.
