

PATRIOT PDP31 500GB M.2 2230 Type-C Compact External Portable SSD

Model: PDP31500G23UCK

Manufacturer: PATRIOT MEMORY

EAN: 4711378421958

Product Code: 873462

R3,000

The Patriot PDP31 is designed for speed and reliability, featuring an internal data rate of 1000 MBps for both read and write operations. This M.2 2230 form factor solid-state drive provides a portable external solution, ideal for users on the go. Equipped with a 24-pin USB-C connector and supporting USB 3.2 Gen 2, data transfers are seamless and efficient. The drive's hot swap support offers convenience, allowing easy access without the hassle of shutdowns. In addition to its impressive performance, the Patriot PDP31 ensures durability with drop-resistant and shock-proof features, giving peace of mind during transport. Compliant with FCC, RoHS, and UKCA standards, it is built with safety in mind. Users can trust that their data is well-protected while enjoying high-speed access, making it a practical choice for anyone needing reliable external storage.
