

CISCO Meraki MG51E Cellular Gateway External Antennas

Model: MG51E-HW

Manufacturer: CISCO

Product Code: 873474

R34,305

The Cisco Meraki MG51E is an enhanced cloud-managed 5G Sub 6 cellular gateway designed to transpose a 5G cellular signal into wired WAN Ethernet connectivity, enabling high-speed, always-on cellular network connectivity for business-critical operations. Networking teams can use the MG51E to connect branch and campus networks in the simplest manner. Part of a modern SD-WAN architecture requiring strong security and reliable performance, the MG51 combines with MX security and SD-WAN appliances to secure users and infrastructure while maintaining optimal network performance.

Product Description: Cisco Meraki MG51E - gateway - LTE | Device Type: Gateway | Form Factor: External | Data Link Protocol: Ethernet, Fast Ethernet, Gigabit Ethernet, 2.5 Gigabit Ethernet | Performance: Maximum wireless data rate passthrough (download): 2 Gbps Maximum wireless data rate passthrough (upload): 300 Mbps Maximum wireless data rate NAT (download): 1.5 Gbps Maximum wireless data rate NAT (upload): 300 Mbps | Mobile Broadband Access: Yes | Generation: 5G | Mobile Communication Protocol: 5G Sub-6 Ghz, LTE | Included Accessories: Mounting plate,
