

TELTONIKA NETWORKS SWM280 L2+ Managed Switch 24x total ETH 12x POE 4x SFP Ports

Model: SWM280000200

Manufacturer: TELTONIKA NETWORKS

EAN: 4779051846238

Product Code: 873476

R7,067

The Teltonika SWM280 is a reliable hub designed to meet the demands of modern networking environments. With a capacity of 512 KB for packet buffer size, this switch ensures efficient data management and performance. It operates effectively in a temperature range from 0°C to 50°C and supports humidity levels from 10 to 90%, making it suitable for various environmental conditions. Featuring 24 ports including 12 PoE+ capabilities, the SWM280 provides flexibility and power management through its 300 W PoE budget.

This switch supports advanced networking features like VLAN segmentation, MAC address filtering, and dynamic routing protocols, ensuring that it can manage complex network infrastructures seamlessly. Its robust design includes compliance with multiple standards such as RoHS and IP30,
