

TELTONIKA NETWORKS SWM281 L2+ Managed Switch 24x ETH Ports 4x SFP Ports

Model: SWM281000200

Manufacturer: TELTONIKA NETWORKS

EAN: 4779051846252

Product Code: 873478

R4,752

The Teltonika SWM281 is a switch designed for performance and reliability in networking environments. With a capacity of 512 KB for packet buffer size, this switch operates efficiently across a wide temperature range from 0°C to 50°C, making it suitable for diverse applications. The SWM281 features flash memory of 16 MB and supports numerous connectivity options, including 24 ports for 10/100/1000 connections and 4 Gigabit SFP ports, using RJ-45 and SFP connectors for installation. Its compliance with various standards such as IEEE 802.3 and RoHS ensures compatibility and safety, while features like VLAN support, port mirroring, and advanced routing protocols allow for complex network configurations. The engineering of this switch also takes into account energy efficiency, making it a choice for environmentally conscious users. With remote management protocols including SNMP and IPv6 support, the Teltonika SWM281 offers easy management while ensuring a high level of network performance.
