CISCO MERAKI MV ENTERPRISE LICENSE AND SUPPORT-1 DAY

Model: LIC-MV-1D

Manufacturer: CISCO

Product Code: 873557

R527

The Meraki Enterprise Cloud Controller lets administrators build secure and scalable wireless networks quickly, easily, and at a lower cost. It provides centralized management, mobility, and security across multiple access points and deployment sites, and facilitates phenomenal real-time support. As the world's ?rst hosted wireless LAN controller, the Meraki Enterprise Cloud Controller eliminates the cost and complexity of traditional hardware-based wireless controllers.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
