

SYNOLOGY D4EU02-16G 16GB DDR4 ECC UDIMM

Model: D4EU02-16G

Manufacturer: SYNOLOGY

EAN: 4711174726486

Product Code: 873562

R29,550

The Synology D4EU02-16G is a memory module designed for enhanced system performance. With a storage capacity of 16 GB, this DDR4 SDRAM offers effective data integrity checks through its ECC technology, ensuring data remains accurate and error-free during processing. Its SO-DIMM 262-pin form factor is tailored for compatibility with various system configurations, making it a choice for system upgrades.

This unbuffered memory module is perfect for users looking to expand their computer's capabilities. By integrating the Synology D4EU02-16G, systems can experience improved multitasking and overall efficiency, allowing for smoother operation under demanding workloads. Upgrade and enjoy the benefits of increased memory capacity with this module.

Product Description: Synology - DDR4 - module - 16 GB - SO-DIMM 260-pin - unbuffered | Product Type: Memory module | Capacity: 16 GB | Memory Type: DDR4 SDRAM - SO-DIMM 260-pin | Upgrade Type: System specific | Data Integrity Check: ECC | Features: Unbuffered | Manufacturer Warranty: 5-year warranty
