

SYNOLOGY RS2825RP+ 16- Bay RackStation AMD Ryzen Embedded V1780B 8GB DDR4 ECC UDIMM

Model: RS2825RP+

Manufacturer: SYNOLOGY

EAN: 4711174725663

Product Code: 873565

R78,927

The Synology RackStation RS2825RP+ is designed to meet the needs of businesses requiring reliable and efficient network storage. With 16 hot-swap bays, it offers options for data expansion, supporting both 2.5" and 3.5" drives. The robust build includes a quad-core Ryzen processor with a clock speed of 3.35 GHz, ensuring smooth operations under heavy loads. Featuring networking protocols, including Gigabit and 10 Gigabit Ethernet, this system provides connectivity for a variety of applications.

Manage your data with multiple network services compatibility, including FTP, SMB, and NFS. The

RS2825RP+ supports RAID configurations for enhanced data security, while power redundancy
