The HP Elite t660 is designed as a small form factor thin client that maximizes productivity while conserving space. This device is powered by an Intel U-Series processor with a base clock speed of 1.1 GHz and can reach turbo speeds of 4.3 GHz. With 5 cores and supported by 8 MB of cache memory, it enables efficient multitasking. The advanced DDR5 SDRAM allows for seamless performance, ensuring that tasks are executed smoothly. Featuring integrated Intel UHD Graphics, the t660 supports up to 4 monitors, enhancing your workstation's visual experience. Furthermore, the HP Elite t660 supports a range of connectivity options including USB 2.0, USB 3.2 Gen 1, USB 3.2

Gen 2, DisplayPort 1.4, and Thunderbolt 4/USB4. This variety ensures compatibility with numerous
