

LANBERG switch PoE desktop 5- port 1GB 4 ports PoE 30W/port max 60W DSP3- 1005-60W unmanaged

Model: DSP3-1005-60W

Manufacturer: LANBERG

EAN: 5901969427790

Product Code: 873942

R1,302

Lanberg DSP3-1005-60W is an unmanaged, compact, desktop PoE+ switch with 5 Gigabit Ethernet ports, including 4 PoE ports with a 60W PoE budget for powered end-devices. This convenient active networking product operates using Plug-and-Play technology. DSP3-1005-60W provides switching support for 5 RJ-45 10/100/1000 Mbps ports with automatic connection negotiation and MDI-MDIX support.

DSP3 is characterized by the use of an external power adapter enabling the switch to operate in PoE/PoE+ mode compatible with IEEE 802.3af and IEEE 802.3at standards. This Lanberg's switch model is ideally suited for home use because of its compact size (just like the DSP2 version) and silent, passive cooling. The black color scheme and the elegant slim case makes the device fit into
