HP Z2 Mini G1i Intel Core Ultra 9 285K 64GB 2x32GB 1TB Gen5 RTX 4000 SFF ADA 20GB W11P 3YW

Model: A40QPET#ABB

Manufacturer: HP INC.

Product Code: 874362

R115,073

The HP Workstation Z2 G1i is designed for performance, equipped with a 24-core Intel Core Ultra 9 processor, ensuring processing power for demanding tasks. With support for AI functionalities through Intel AI Boost and various software frameworks such as OpenVINO and ONNX RT, this workstation is tailored for applications in AI and data analysis. The setup includes 1 DDR5 SDRAM, providing ample memory for multitasking and resource-intensive applications. Networking is made easy with integrated Ethernet connectivity, and with a focus on sustainability, it complies with low halogen standards, making it an environmentally conscious choice for professionals.
In addition to performance, the HP Workstation Z2 G1i features data processing capabilities up to 36 TOPS, which enhances its suitability for real-time analytics and machine learning tasks. Its GPU can deliver performance up to 8 TOPS, further enabling graphic-intensive applications. The system is
