

D-Link 4G LTE AX1500 Wi-Fi 6 Router

Model: G416C/E

Manufacturer: D-LINK

Product Code: 874377

R3,075

Effortless Connectivity, Powerful Versatility

The G416C combines Wi-Fi 6 performance, 4G LTE Cat 6 mobility, and WAN failover protection — perfect for modern workspaces, pop-up stores, or remote environments that demand stable, flexible Internet.

Cable-Free Setup with Dual Connectivity

Get connected your way — insert a SIM card for instant 4G access or plug in broadband via the LAN port. Share it all with fast, reliable Wi-Fi 6 coverage and speeds of up to 1.5 Gbps, perfect for streaming and video calls.

Double the Bandwidth, Double the Performance

With LTE Cat 6 and 2CA (Carrier Aggregation), two channels combine to deliver download speeds up to 300 Mbps , which is twice as fast as Cat 4. Enjoy smoother streaming, faster downloads, and a better online experience even without fixed-line broadband.

Always Connected, Even When Your Main Network Fails

Whether you set mobile or wired as your primary connection, failover mode ensures a smooth switch when needed, perfect for working, streaming, or staying in touch without interruption.

Reliable Coverage for Multi-device Environments

MU-MIMO allows your router to communicate with multiple devices simultaneously. Combined with 5dBi high-gain antennas, it ensures strong, stable signals and smooth performance — ideal for busy homes with multiple users.

Trusted Security for Daily Connectivity

Featuring built-in Wi-Fi security protocols, the G416C safeguards your data, devices, and network privacy with a trusted supply chain for reliable protection.
