The Lenovo ThinkCentre M70q Gen 6 is designed for users who need performance in a compact format. Featuring an ultra small form factor, this personal computer is equipped with a powerful Intel Core Ultra 5 processor, providing 10 cores and a max turbo speed of 4.9 GHz. With 16 GB DDR5 SDRAM and support for dual-channel memory architecture, users can expect efficient multitasking and swift data processing. The 512 GB SSD offers ample storage and ensures quick data access with its PCI Express 4.0 interface. This model stands out with its ENERGY STAR certification and robust security features, including a Discrete Trusted Platform Module (TPM 2.0) and chassis intrusion switch. The integrated Intel Graphics ensures decent visual performance while various connectivity
