**Sustainable, through and through**

Sustainability is playing a central role in more and more areas of life. With the new Green Line from Intenso, you no longer have to compromise on sustainability when it comes to your storage media. With a resource-saving produced housing made of recycled plastic and organic composite material, the Green Line combines reliable storage performance with the idea of sustainability, because the housing can not only be disposed of in the recycling bin, but also dissolves in an industrial composting plant within 6 months. The packaging is also designed with sustainability in mind and is 100% plastic-free and completely recyclable.

**Your green solution for storage media**

The Green Line not only impresses with its biodegradable housing, but also with its fast data transfer rate. Thanks to the USB 3.2 Gen 1x1 interface, it reaches transfer speeds of up to 70 MB/s. This allows larger amounts of data to be transferred to the USB flash drive in a short amount of time. The surface made of recycled materials gives the stick a pleasant feel and makes it the ideal, sustainable companion for everyday use, whether in the office, at the university or at home.
