computers, printers, IP cameras, game consoles, and more. This makes it perfect for use in home, small office, and even dormitory environments.

Cool, Ultra-Compact Design

A sleek, square build with a cool red and black color combination provides a high-tech look and feel. About the same size as a smartphone, MS105G sits anywhere in your home without taking up too much.

Plug and Play

Forget about complicated installation. Just connect the switch to your TV or computer via an Ethernet cable to immediately expand your wired network. Absolutely no configuration is required.

Reliable Performance

With Half/Full Duplex and MAC Address Learning Technology, MS105G provides up to 10 Gbps of stable switching bandwidth. Every unit undergoes extensive testing prior to shipment to ensure it will provide reliable, uninterrupted connections for years to come.

Go Green with Your Ethernet

You now have the choice to go green when upgrading to a gigabit network! MS105G features the latest innovative energy-efficient technologies to greatly expand your network capacity with much less power. It automatically adjusts power consumption according to the link status and cable length to limit the carbon footprint of your network.
